ENTER

ENTER International is a non-profit Youth-lead Organization, registered at the **Erasmus+** Corps, whose aim is to promote the awareness of teenagers on topics related to the environment, technology, leadership and mobility. This is possible through unconventional activities such as international debates, free classes, sports activities, summer programs and festivals.

Organization ID: E10290349

What is the ESummer?

The ESummer is a Hybrid Summer Program organized by ENTER International in Mestre, Venice focused on Tech and Leadership joint with Sustainability. The program is divided in multiple study cases, informal debates, keynote talks and trips that promote cultural exchange among students and the locals.

The whole program is held in English and it's open to everyone interested in the topic (even with no previous experience) aged between 16 to 22.

ENTER International

Summer Program Activities

Core Activities

Core activities will be at the centre of the programme. These will help the students consolidate their learning, and it will make sure that they use it to enrich their vocabulary and subject knowledge from their peers.

Extra-Curricular Activities

We at ENTER believe that environmental well-being will be achieved only once physical and mental well-being are achieved first. To achieve this, we will also provide the participants with additional activities, such as sports, meditation sessions, and cultural activities.

Follow-up Activities

After the project's lifetime, the participants will follow-up with the team once every two weeks for three months. We will use the data collected to provide the participants with an outcome report.

What is our Personas at the ESummer

Description:

Empowered Youth aged between 16 to 27, interested in sharpening their knowledge about tech and sustainability while being in direct contact with International students.

Provenience: We aim to promote diversity therefore there is no nationality requirement or limitation

Social Background: We do not intend to limit this opportunity to any Social/Economical Background as we believe education to be a human right
